

2014 Participant Pledge Form

That Georgia has a robust recycling infrastructure is well-known to those in the recycling industry. However, when state leaders and others are asked for specifics about recycling in Georgia, the limited amount of data available do not accurately represent the reality of recycling activities.

Measure Georgia is a new campaign from the Georgia Recycling Coalition designed to gather this type of information from governments and businesses across the state.

With your support, this effort will allow us to quantify the important role recycling plays in economic development in Georgia.

YES! I Want to Count.

I will be the contact for the Measure Georgia effort and pledge to report data for our:

- Local Government
- Processor / MRF
- End-User / Manufacturer
